2023-12-06	Tutoring	1.25	Miles Banks	We went over his test from last week. The two big things I noticed that we should work on are word problems and rushing through problems. He is very smart and quick minded, but I'm trying to get him to slow down and think through the steps to get to the right answer. I'll do more word problems with him next time.
2023-12-07	Tutoring	1.25	Aaron Sandiford	Went over coordinates on a graph and slope of a line. Then we spent a lot of time reviewing fractions, division (long division), and multiplication, division, addition, and subtraction of negative numbers. He still struggles with those. Will probably do a little more practice on that next week.
2023-12-08	Tutoring	1.25	Abigail Wilson	Continued working on chapter 3.3 - 3.5, but focused on word problems. She is very good at algebra and arithmetic, but struggles on how to set up the problem initial (most kids struggle with that). So we are spending a lot of time practicing that.
2023-12-11	Tutoring	1.75	Miles Banks	We had a small issue getting on the zoom, he thought we were meeting 10minutes after the hour. After that, we spent a lot of time on algebra, where I think I gave him too advanced problems. It was solving for 2 variables with 2 equations. I spent a lot of time going over that, we learned a lot but for next session, I will still with simpler problems
2023-12-13	Tutoring	0.75	Miles Banks	Had to stop early because he was feeling unwell. However, worked on word problems. Might meet up later to finish up the problems if he's feeling better and my schedule today allows it.
2023-12-15	Tutoring	1.00	Abigail Wilson	Went over a few more word problems, then began chapter 4. Got up to chapter 4.2
2023-12-18	Admin	1.00		Bi-weekly meeting with updates
2023-12-20	Tutoring	1.25	Miles Banks	Finished going over word problems. Today was our last day before the holiday break. When we get back we will continue graphs
2023-12-21	Tutoring	1.00	Abigail Wilson	Went over all of section 4.3, most of it she got pretty well. She got a little stuck on factoring, but we puzzled through to figured it out.
2023-12-21	Tutoring	1.00	Aaron Sandiford	Went over algebra problems. Spent a lot of time on powers and roots, but other than that he seems to be getting it very well.

Pay period: 2023 Dec
Name: Filipe Cerqueira
Total (USD): 358.75

Category	Hours	Rate	Pay
Tutoring	8.25	35.00	288.75
Admin	2.00	35.00	70.00

Date	Category	Hours	Student	Notes
2023-12-04	Tutoring	0.25	Channing Brisbane	no show
2023-12-04	Admin	1.00		team meeting
2023-12-04	Tutoring	1.00	Joëlle Mendy	very good session. she remembered our last session with fractions. she also tackled some really challenging inequality questions very gracefully and with curiosity and openness
2023-12-05	Tutoring	1.00	Channing Brisbane	bad tutoring day today. I could tell he was cranky and tired. He openly said "no" when I suggested him to try something with his math homework which resulted in him getting confused and clarifying his confusion. Will try again next week
2023-12-05	Tutoring	1.00	Markayla Lejoi Denson	Took a step backwards today with fractions, will need to review that last time with Markayla
2023-12-11	Tutoring	1.00	Channing Brisbane	test tomorrow on similar shapes. Forgot a bit of what we talked about at first, but then remembered once we got into it
2023-12-11	Tutoring	1.00	Joëlle Mendy	test tomorrow over inequalities. she understands the concepts but is making small arithmetic mistakes. I talked with her about test taking strategies
2023-12-12	Tutoring	1.00	Markayla Lejoi Denson	was a lil late, but was very attentive and positive this time. we are progressing slowly, but we are making progress. she said that her standardized exams for math were about solving for x which is what we've been exclusively working on
2023-12-18	Admin	1.00		group meeting
2023-12-18	Tutoring	0.25	Channing Brisbane	missed session
2023-12-18	Tutoring	1.00	Joëlle Mendy	very good session today, we added some more skills in inequality. she seemed in general high spirits today talked a lot with her mom today about next year and her progress. she said earlier that her kid said that she didn't want to do tutoring anymore because of anxiety and stress. her mom said she is absolutely not stopping tutoring and i told her how awesome she is doing and that she has had issues since last year with confidence. I try to help her this with positive reinforcement, but i will work on this more next year
2023-12-19	Tutoring	0.75	Markayla Lejoi Denson	very good session. reviewed exponents and introduced FOIL. she had a pop quiz friday but it so happened that it was over exactly what we've been working on

Pay period: 2023 Dec

Name: Gianni Sims

Total (USD): 516.25

Category	Hours	Rate	Pay
Tutoring	12.75	35.00	446.25
Admin	2.00	35.00	70.00

Date	Category	Hours	Student	Notes
2023-12-03	Tutoring	2.00	Meshack Juma	Going over various optimization problems. Session was extended to makeup for excused missed session last week.
2023-12-03	Tutoring	2.00	Simone Hopson	going over various problems where we were solving systems of linear equations. session was extended due to excused absence last week.
2023-12-04	Admin	1.00		going over individual check-ins as well as announcements on knowing when students end the fall semester and start the spring semester.
2023-12-04	Tutoring	1.00	Ethan Barlay	going over varying problems of solving trig functions with different types of triangles.
2023-12-06	Tutoring	1.50	Kennedy Burks	going over evaluating trig functions of angles within the unit circle.
2023-12-10	Tutoring	1.50	Meshack Juma	continuing to go over various problems on optimization
2023-12-10	Tutoring	1.00	Simone Hopson	going over solving different variables in algebraic equations
2023-12-11	Tutoring	1.00	Ethan Barlay	continuing on problems involving the unit circle
2023-12-17	Tutoring	1.00	Meshack Juma	review prep for final. evaluating various limit problems.
2023-12-17	Tutoring	1.75	Simone Hopson	review question for finals: writing new equations for a line and solving for systems of linear equations
2023-12-18	Admin	1.00		final student tutor check-ins for the semester.

Pay period: 2023 Dec
Name: Greg Cunningham
Total (USD): 245.00

Category	Hours	Rate	Pay
Tutoring	6.00	35.00	210.00
Admin	1.00	35.00	35.00

Date	Category	Hours	Student	Notes
2023-12-05	Tutoring	1.00	Léonie Mendy	Went over percents and ratios. Had to come up with a few tricky problems beyond what she's learning in class
2023-12-05	Tutoring	1.00	Nailah Gabrielle Cannon	Went over Centripetal acceleration and some questions on visualization of forces. Moving from college apps to physics in prep for final exam.
2023-12-05	Tutoring	1.00	Gabriel Hassan	Went over linear systems of equations and solving. Gabriel gets distracted by the words and numbers, so it's important to slow him down so he knows what's important for solving
2023-12-12	Tutoring	1.00	Léonie Mendy	Went over negative and positive numbers and how they differ on the number line / magnitudes from zero. Was a bit harder for her to understand, so this was a novel session. Went well though.
2023-12-12	Tutoring	1.00	Gabriel Hassan	Wrote a reflection on corporal punishment. Found that letting him do most of the problem and then going back and fixing the things he misses in between builds confidence and also helps him remember when a similar issue happens multiple times.
2023-12-13	Tutoring	1.00	Nailah Gabrielle Cannon	Covered waves and kinematics for physics homework. Turned more into a lecture than problem solving, but she said that was more useful.
2023-12-18	Admin	1.00		Biweekly Tutor Meeting

Pay period: 2023 Dec

Name: Haley Carrasco

Total (USD): 192.50

2023-12-01	Tutoring	1.25	David Oche	No new work in class. Started building science fair robot https://www.youtube.com/watch?v=SBeGl_IgWwY
2023-12-04	Tutor Coordinator	2.50		Admin + Tutor meetings
2023-12-04	Tutoring	0.75	Judah Worthy	Physics review for test this week (kinematics, dimensional analysis). Great handle. Hopes to raise grade after test, currently D+ due to missing hw assignments that he took responsibility for not doing. First college acceptance: Chico State!! Might meet Wednesday, pending theater schedule
2023-12-06	Tutoring	0.75	Nahla Kaplan Rasheed	Catching up from break/being sick. Reviewed graphing linear functions and using them in word problems. Hopes to get grade up to B before end of year. Was not sure when that was, but thinks it is close to Christmas. Planning to meet again next week. Switching sessions to 45 minutes to help with work balance.
2023-12-06	Tutoring	0.75	Judah Worthy	Got A on last test (motion graphs, astro problems)! No new material, just reviewed a Moon phase problem that he missed. Meeting again next Monday.
2023-12-08	Tutoring	1.00	David Oche	Math: Had test of systems of equations. Physics: Test on magnetism, moving on to electromagnetism next. Feels good in both classes. Continued building science fair robot.
2023-12-13	Tutoring	0.75	Nahla Kaplan Rasheed	Reviewed graphing lines for test next week. Seems to struggle a bit with identifying slope and intercept, but has great handle on arithmetic. Will try to meet one more time before test.
2023-12-13	Tutoring	0.75	Judah Worthy	Intro'd motion graphs with acceleration and velocity. Great handle, no finals this semester, meeting one more time next Monday.
2023-12-15	Tutoring	1.50	David Oche	Reviewed graphing and solving systems of linear equations. Great handle, just needs to practice working with negative numbers and fractions a bit. Last session scheduled for next Monday to prepare for test on Wednesday.

2023-12-16	Tutor Coordinator	2.00		Reviewing timesheets, developing report generation toolchain
2023-12-18	Tutor Coordinator	1.00		Tutor meeting
2023-12-18	Tutoring	0.75	David Oche	Last session. Reviewed graphing linear equations and word problems for test this week.

Pay period: 2023 Dec

Name: LaNell Williams

Total (USD): 218.75

Tutoring	6.25	35.00	218.75

Date	Category	Hours	Student	Notes
2023-12-04	Tutoring	1.00	General Tutor Bi-Weekly Meeting	Putting General meetings here as suggested by LaNell for book keeping and separation
2023-12-04	Tutoring	1.75	Keilana Alfaro	Covered Balancing Equations
2023-12-05	Tutoring	1.50	Keilana Alfaro	Practiced balancing equations
2023-12-11	Tutoring	2.00	Keilana Alfaro	I covered algebra, but the teacher is covering 4 sessions/topics a week without much practice. The parent noticed also and is bringing it up with the school
